

Active Long Distance Antenna for Digital TV

high efficiency filter
4G LTE INERT

4G LTE INERT Technology
Integrated low noise amplifier
Low power consumption
Stylish and compact design
UHDTV & 3DTV compatible
Easy to install, no tools needed
Wind tunnel tested up to 120km/h
Performance of larger antennas in a smaller package
Made in EU

The Ferguson YagiNX brings the trusted and proven concept of the yagi antenna to the 21st century. This outdoor antenna offers excellent digital and analogue reception and protects you from interferences originated by the transmissions of the actual 4G mobile network. The INERT Technology applied to this antenna is like no other existing technology in the market; it is unique, efficient and affordable. Thanks to its compact size, it is as easy to install as it is to change a lightbulb.

Main Features:

- Compatible with DVB-T/T2, ISDB-T
- Frequencies UHF (470-790 MHz)
- Stylish and compact design
- Easy installation
- Build-in amplifier
- 5V power supplier included
- INERT Technology active antenna

Characteristic:

- Antenna Gain 27 dBi
- Amplifier Gain 20 dB
- Frequencies UHF (470-790 MHz)
- Female F-connector
- Input voltage $5 \pm 0,5$ VDC (power cable included)
- Dimensions 370 x 220 x 24 mm

Easy installation

Packaging

Bulk packaging: **17 pcs.**

EAN Code

Code: 590711500240
