Main features:

Wireless Bluetooth music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favourite music and sound wirelessly.

Speakerphone

Thanks to the built-in microphone can be a hands-free device, which you can use for example on meetings, in car or any other place including your shower, since it is waterproof.

Control via the built-in buttons

The device is controlled by buttons placed on the housing. This allows you to adjust the volume, pause or take and end calls.

Waterproof

The device is waterproof and can be used for example during the shower. Ferguson HearMe 100BT is perfect for your holiday on the lake or seaside. The speaker is equipped with a powerful suction cup. You can attach the speakers to the tiles in the shower, windows, mirrors and so on.

Mobile

The device is very convenient and handy. It can be placed on a cabinet or on the table. It is extremely mobile - you can take it whenever you want (to a party, the holidays, car, office or to the garden ...). The possibilities are endless!
