- Keep the device away from flower vases, tubs, sinks, etc., in order to avoid damaging the equipment. Do not touch power supply with wet hands.
- Don't put any objects on the device.
- Be sure to turn the device off and disconnect the AC power cord before cleaning the receiver surface. If the surface is dirty, wipe clean with a cloth which has been dipped in a weak soap/and/water solution and wrung out thoroughly, and then wipe again with a dry cloth.
- Do not connect cables while power is plugged.
- Do not use damaged cables for connections: you could cause fires.
- Please switch off completely the device while making all connections.
- The product purchased is a sophisticated electronic device which is not suitable for children under 18 years.
- We do not assume responsibility for damages caused to people or object, deriving from use of the device made by people under 18 years.

BASIC INFORMATION ABOUT THE DEVICE

Main features

- Micro Hi-Fi with integrated CD, Bluetooth and Tuner
- PLL FM tuner with station memory and RDS functions
- Connection jack 3.5 mm earphone jack on backside
- USB-port on front for connection of an external USB devices
- AUX input
- Clamp connections for speaker connection cable
- System is compatible to CD-R, CD-RW optical data carrier and MP3, WMA files
- Bluetooth connection for audio file streaming
- ID3 tag support
- Standby power consumption <0.5W and ERP II (Energy related products note)
- two High grade 2-way boxes with bass reflex system and balanced sound characteristics (2x25 watt)

Downloadable software

Ferguson has taken every effort to provide users with software updates in order to ensure that the parameters of the device are up to date. Ferguson reserves itself the right to amend, change or modify the software used in the device as it shall choose and without prior notification. The latest version of the software is available on the website http://www.ferguson-digital.eu

Note:

Please keep in mind that new software may change the functionality of the receiver. Photographs and descriptions included in the instruction manual are for informational purposes only. If you should notice an error, please report it - we shall make every effort to have it rectified.

Contents of box

Unpack the receiver and check whether all of the following elements are present:

- Micro Hi-Fi device
- User guide
- Remote control and 2x batteries AAA
- FM antenna
- two High grade 2-way boxes with bass reflex system and balanced sound characteristics (2x25 watt)

QUICK START GUIDE

Front panel
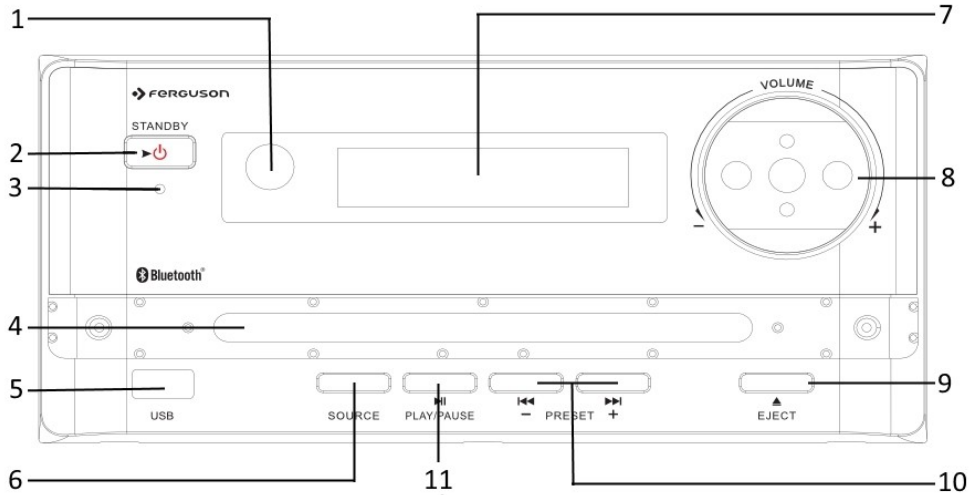

1. Remote sensor	3. Indicator	5. USB port	7. Display screen	9. Eject	11. Play/Pause
2. Power ON/OFF	4. Disc tray	6. Source	8. Volume knob	10. Previous/Next Preset +/-	

Rear panel
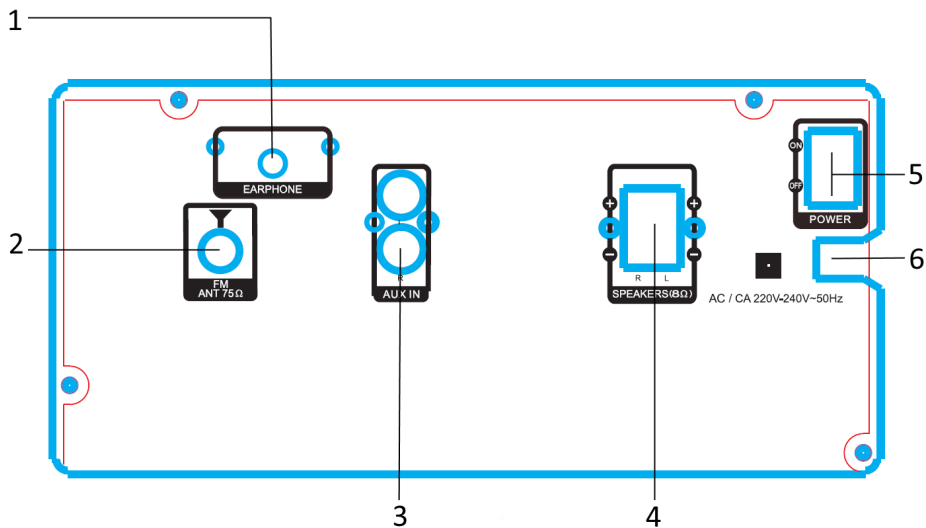

1. Earphone	2. FM antenna	3. AUX input	4. L/R Speakers	5. Power switch	6. Power supply

Remote control

	Turns the system on or switches it to standby mode.
	Opens / closes the disc tray.
CD/USB/FM/BT/AUX	Access the contents of disc, connected USB device, switches the mode to FM radio or Bluetooth.
REPEAT	Sets repeat mode (one track/all).
PROGRAM	Makes tracks of CD be played in a programmed order.
RANDOM	Plays the tracks in a random order.
0-9	Selects numbered items in a menu.
FREQ	Enters radio station frequency.
SAVE	Saves the current frequency of band (in radio mode).
ID3/RDS	Displays information on the display during playback.
	Turns on/off sound.
VOL+/-	Increases / decreases the volume.
M+/-	Changes radio station.
EQ	Selects different sound presets: Jazz, Rock, Classic, Pop, Live, Dance and off.
BASS/TREB	Bass or treble adjusting mode.
	Skips to the next/ previous title/chapter/track (in media player mode).
	Reverses search / Fast forward
	Starts playback / Pauses playback
	Stops playback
MO/ST	Turns STEREO ON or OFF
TUNE+/-	Adjusts the frequency in increment of 0.05MHz
SEARCH	Automatically searches and store bands (in radio mode)

Installation of batteries
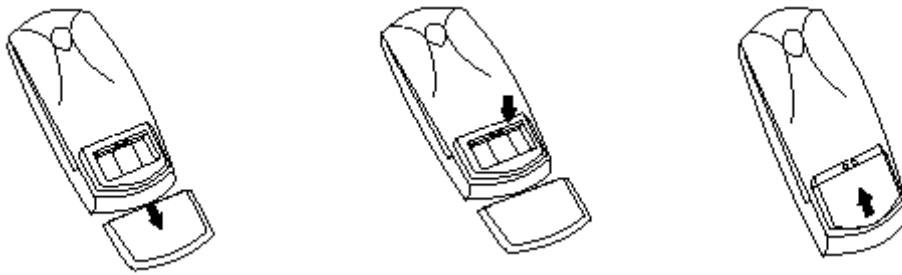

Remove the cover of the battery compartment on the rear panel of the remote control unit; slide it downwards and put it aside. Insert two AAA (R03) batteries into the compartment, observing the indicated polarity. **Do not mix old and new batteries, or batteries of different types.** Replace the battery compartment cover. Slide it upwards until it locks in place.

BASIC OPERATIONS

Preparation

1. Check if all the connections are right and then insert.

2. Press the **POWER ON/OFF** button on the rear panel of this unit.

3. Press the ⏻**STANDBY** button to switch on the unit or switch to standby mode.

4. Press the ⏏**EJECT** button to move the disc holder out. Put the disc on the disc holder and press the **EJECT** button again.

5. The player will start loading the disc and playing the disc automatically.

When playing MP3 tracks via a MP3 disc or USB device, press **ID 3** button will show the information of the tracks: artist, album, etc.

RDS

In FM mode, press the **RDS** button on the remote control to view the radio information:
PS: Program service name; PTY: Program type; CT: Clock time and date; RT: Radio text.

Repeat

Press the **REPEAT** button to set repeat mode. Press once to repeat current track "↻".
Press twice to repeat all tracks "ALL↻". Press the third time to cancel.
*Note: The repeat function is also available in USB mode.

SYSTEM CONNECTION

Please check the below connection and make safe and firm connection before using.
Do not switch on and off or press power switch frequently, switching on and off each time must have an interval of 3 seconds.
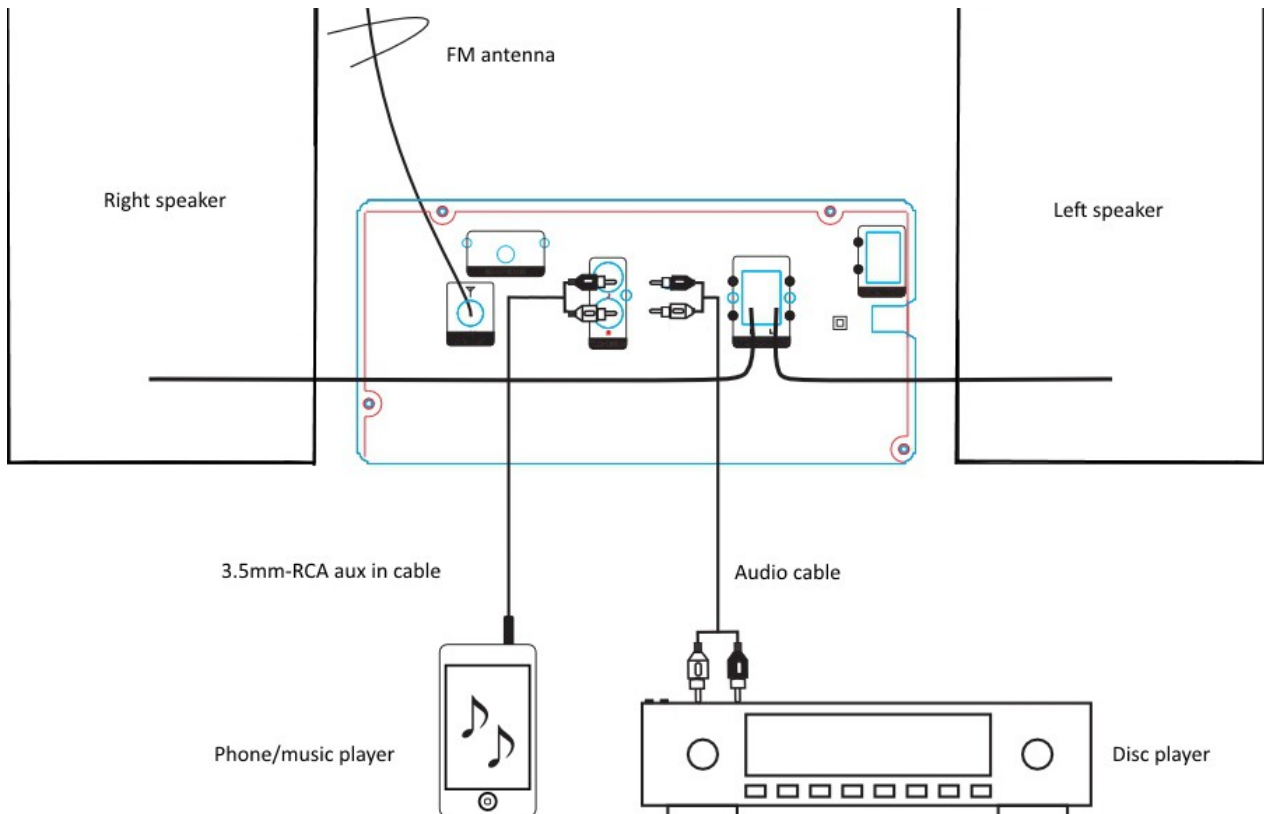

ADDITIONAL CD FUNCTIONS

Program

This function makes tracks of CD be played in a programmed order. The unit can be programmed 20 tracks at most each time. (Not enabled with CD MP3/WMA.)

1. While playing a CD disc, press the **STOP** button, then press the **PROGRAM** button, it will display: PR 0100.

2. Input the number of the track which you want to play first, e.g. input 04, the fourth song will be played as the first song. When you finish entering the first order, it will turn to the next order automatically.

3. When you finish all progress, press **ENTER** to confirm, and it will play the tracks by the programmed order.

4. To cancel programmed playing, press the **STOP** button twice to exit.

USB OPERATION

1. Insert the USB device to the USB port on the front panel of the unit.

2. Press the **USB** button on the remote control to enter USB mode.

3. The player will automatically detect the device and automatically start playing when it found the device.

Note:

1. Depending on the amount of data and media speed, it may take longer for the system to read the contents of the media device. This is not a malfunction.

2 . Even when the files are in a supported format (MP3), some may not play or display depending on the compatibility.

BLUETOOTH OPERATION

Pair operation

1. Press the **BT** button to enter the Bluetooth mode. The indicator light flashes blue.

2. Turn on the Bluetooth function on your device (e.g. mobile phone).

3. Place your device in Bluetooth search mode. The mobile phone will search for this unit.

4. Select **Ferguson HearMe** from the list of found devices on the mobile phone.

5. Select OK or YES to pair and for some devices, enter "**0000**" for passkey.

6. When successfully paired with your device, the indicator light flashes steadily.

7. Turn off the Bluetooth function on your device to disconnect the device. The unit will enter the Bluetooth pairing status automatically. Then follow the steps 2-5 of **PAIR OPERATION** to connect to another device.

Note:

1. Some devices may connect immediately after pairing, some may take longer to connect.

2. The unit can only be connected and playing content from one device at a time.

FM OPERATION

Frequency range: 87.50-108.00MHz. Adjust the FM antenna to get the best sound quality.

1. Press the **FM button** to enter FM (Tuner) mode.

2. Press the **MO/ST** button to turn STEREO ON or OFF if there is strong stereo signal.

3. Press the **SEARCH** button to search stations from low to high frequency automatically. Press again to stop searching.

4. Press **TUNE+/-** briefly to adjust the frequency in increment of 0.05MHz.

5. Press and hold **TUNE+/-** buttons on the remote control or press and hold **PRESET+/-** buttons on the front panel to scan the next or previous frequency with sufficient reception, once an available frequency is found, it will stop tuning.

Select stations

1. There are default radio stations whenever you turn on the unit with good radio signal reception. Press the NUMBER buttons directly to select stations you want.

2. Press the **CH+/-** buttons on remote control or **PRESET+/-** buttons on the front panel to sequentially select the previous or next station.

3. If you are aware of the station's frequency, you can select the frequency to find stations. Press **FREQ** button and then the NUMBER buttons on remote control to choose frequency. E.g. to listen to 103.50MHz, press **FREQ** button, then press 1, 3, 5, 0 to enter 103.50MHz.

Save Stations

You can at most save 60 stations of the unit.

To save 99.70MHz to the 15th station, press **CH+/-** or Number buttons 1, 5, to enter the 15th station; press the **FREQ** button and input 9, 9, 7, 0, then press the **SAVE** button to save.

TOUBLE SHOOTING
