## SHD100 CAR CAMERA

MULTIFUNCTION CAR DVR

**5HD**  
VIDEO

**16MP**  
FOTO

**2,7"**  
SCREEN

**135°**  
VIEW ANGLE

**HDMI OUT**

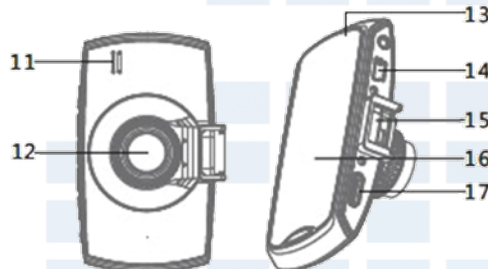

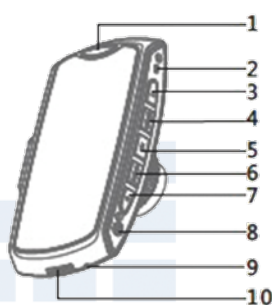

Our multifunction car DVR Ferguson Eye Drive SHD100 records movies in **Super HD quality** (2304x1296, 30fps). The large LCD TFT 2.7" display and recording angle of 135° create many customizing opportunities for the end user. Thanks to the **electronic image stabilization**, shocks are no longer a problem. This intelligent and powerful device is protected against interference in the power supply, which ensures data security. Ferguson Eye Drive SHD100 has also a **slot for memory cards** up to 32 GB. The device allows you to shoot **high-resolution images** up to 16MPx (4608 × 3456). Our car DVR is equipped with a **motion sensor** - registration begins immediately after detecting any movement in the visual field. As a result, the DVR can monitor the environment autonomously, without any interference from the user side. Ferguson Eye Drive SHD100 stores movies in cyclically files. After running out of memory the newest file will overwrite the oldest one, this will prevent the loss of current data.

## Specification

- Super HD video resolution (2304×1296, 30 fps)
- Max. foto resolution 16MP (4608×3456)
- Display 2.7"
- 135° view angle
