

Wi-Fi IR Transmitter FS1IR

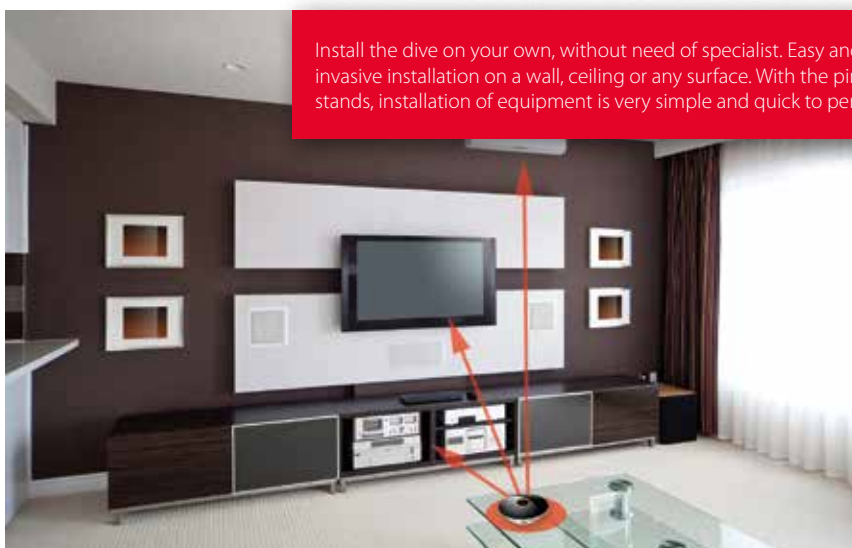

The camera is Ferguson's SmartHome system compatible. It can be used alone.

- Wi-Fi IR Transmitter
- All your Audio and Video devices under control of one!
- Powerful 360° infrared signaling
- Supports all IR home appliances
- Storage of thousands of IR codes, highly compatible
- Easy installation, put on the table, paste on the wall, fix on the ceiling

Smart device through which you will have all your audio and video devices under the control of the one! IR Transmitter sends a strong IR signal around, so that regardless of where you currently are, you can for example switch the program on TV, louder sound in your radio etc. Thousands of embedded codes will allow to enjoy the device immediately after installation, which is extremely easy and can be done virtually anywhere (on the table, on the wall, on the ceiling). And all of that under control of the mobile application! Operate your devices directly from your phone! Even those who supposedly can not handle that...

- **Power supply:** DC 5V 1A
- **IR:** 38KHz
