

Repeater and Gas Leak Sensor FS1RG

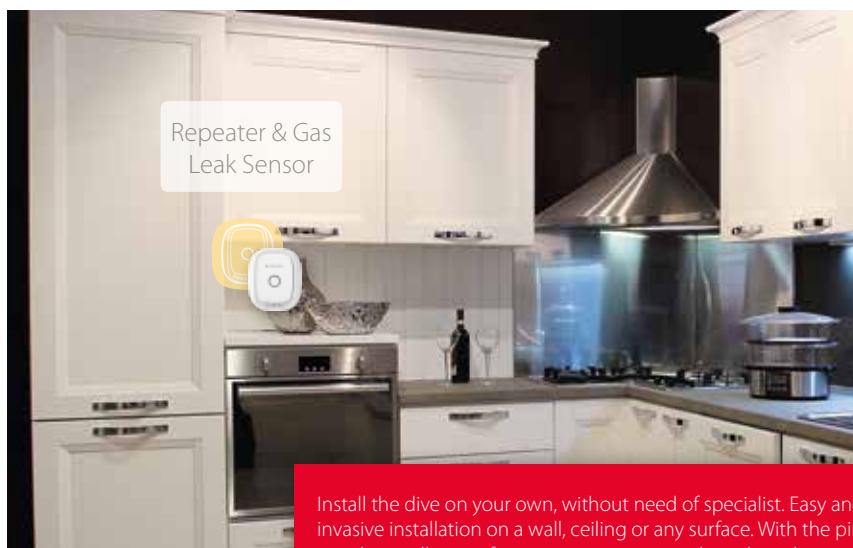

The camera is Ferguson's SmartHome system compatible. It can be used alone.

- Extends ZigBee mesh range & effectiveness
- Detects natural gas leaks
- Delicate & luxury design

A gas sensor protects you from poisoning gas, signalling exceeded air pollution with beep and lighting of the LED light. An additional feature of this sensor is to expand the range of your ZigBee network. It acts as a repeater by sending Smart Hub signals coming from the other sensors straight to the user, so that he can receive reliable information about condition of the system.

- Working Voltage: AC100V-240V
- Average consumption: < 1.5W
- Alarm sound: 75dB (1 meter distance)
- Alarm density:
6%LEL+3%LEL (natural gas)
- Networking: ZigBee Ad-hoc Networking
- Wireless networking distance:
< 100m (open area)
- Working environment: -10°C - +50°C
- Working humidity: ≤ 95%RH
- Dimension: 79*68*31mm
(not including plug)

Repeater & Gas Leak Sensor

Install the device on your own, without need of specialist. Easy and non-invasive installation on a wall, ceiling or any surface. With the pinned stands, installation of equipment is very simple and quick to perform.
