

Smart Hub FS1SH

- The center of home remote control
- It supports both standards: Wi-Fi and ZigBee
- Built-in sound siren and LED backlight

Smart Hub is the heart of the system, it monitors and interprets the signals from other sensors of the system. This device supports two technologies of communication protocols:

Wi-Fi – it allows you to connect to the system via phone, tablet, computer and configure the system according to your needs and to receive informations about events and threats, which the system detects.

ZigBee – the protocol by which the sensors communicate with each other and the Smart Hub.

Smart Hub also acts as a siren with LED backlighting, thereby signaling the alarm condition.

All these tasks are handled by unit with small dimensions and with a modern, stylish design.

- Working Voltage: AC100V~240V (full voltage range)
- Average Power Consumption: $\leq 1.5W$
- Networking: ZigBee Ad-Hoc Networking
- Wireless Networking Distance: ≤ 100 m (open area)
- Anti-RF Interference: 80MHz-1GHz 10V/m
- Working Temperature: $-10^{\circ}C - +50^{\circ}C$
- Environment Humidity: $\leq 95\%RH$ (no congelation)

Install the dive on your own, without need of specialist. Easy and non-invasive installation on a wall, ceiling or any surface. With the pinned stands, installation of equipment is very simple and quick to perform.
