

Repeater and Gas Leak Sensor FS2RG

It is part of the Ferguson SmartHome 2.0 system, it works autonomously, some functions require the FS2SH gateway.

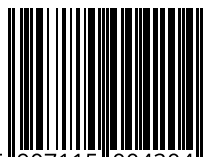

- Increases the range and operation of the ZigBee network
- Detects gas leaks
- Slim and luxurious design

The gas sensor protects household members against gas poisoning by signaling the exceeding of air pollution with a sound signal and lighting of the diode. An additional function of this sensor is extending the range of the ZigBee network. It acts as a repeater, sending signals from other sensors to the Smart Hub so that they can be correctly interpreted and the network user receives reliable information about the system.

- Working voltage: AC 100V - 240V
- Average consumption: $\leq 0.3W$
- Sensitivity: $3000 \pm 1000ppm$
- Alarm sound: 75dB (1 meter distance)
- Alert concentrations: 6% LEL + -3% LEL (natural gas)
- Web: ZigBee ad-hoc
- Wireless range: $< 100m$ (open area)
- Working environment: $-10^{\circ}C - +50^{\circ}C$
- Working humidity: $\leq 95\% RH$
- Dimension: $79 * 68 * 31mm$ (not including plug)
