GSM Smoke Detector FS2SD-GSM

A part of the Ferguson SmartHome system. Can be used alone.

1 YEAR OF SAFETY FREE

GSM

- Autonomous smoke detector
- GSM module for notifications
- No separate power supply required (up to 10 years of operation of the smoke detection module on one battery)
- Up to 3 years of GSM module operation on one battery
- Does not require Wi-Fi/Ethernet/Internet
- Detects smoke that is already in the early stages of a fire
- It alerts the user with a siren and a phone notification
- Small size, modern design, mobility, easy assembly
- Compliance with EN14604 norm

It protects life, warns residents about a fire with a sound signal, LED diode and phone notification (via mobile application). Characteristics features: mobility, ease of installation without having to distribute cable infrastructure, long operation without having to replace the battery.

- Model: Ferguson GSM Smoke Detector FS2SD-GSM
- Type A fire detector: does not contain radioactive materials
- Sensor type: optical
- Connectivity: GSM
- Operating voltage: 3 V (CR123A/CR17335 lithium battery)
- Acoustic alarm: ≥85dB / 3m
- Working temperature: 0°C ~ +50°C
- Working humidity: ≤95% RH
- Acoustic alarm: in accordance with ISO8201 norm
- Mounting: ceiling mounting (preferred) or wall mounting
- Compliance with EN14604 norm
- Dimensions: Φ 149.5 x H 46 mm

- Built-in SIM card!
- No hidden costs!
- No extra fees in the European Union!

Ferguson Cloud Services
- collecting information from smoke detectors
- interpretation of information
- distribution of information to recipients

examples of use

The sensor is ideal for securing properties to which you do not have permanent access. Thanks to remote notifications in a dedicated application, you will immediately find out about the danger.

Take care of the safety of places particularly exposed to fire. Garages, basements, attics, outbuildings, farmhouses, gazebos, summer houses - now they are safe!

By grouping sensors, you can easily administer even very large implementations. Do you administer the building? You can now react directly to threats!

Are you building or renting residential buildings or flats? GSM Smoke Detector is the perfect complement to home or apartment security, in addition controlled by you or your company. A safe place is a more valuable place!
