

Smoke Detector FS2SD

It is part of the Ferguson SmartHome 2.0 system, it works autonomously, some functions require the FS2SH gateway.

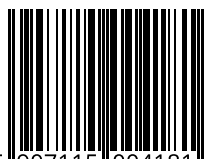

- It detects smoke that is generated in the initial stage of a fire
- It alerts the user with a siren and light
- Small size, modern design, mobility, easy installation

A smoke detector installed near the fireplace, central heating stove and cooker protects the life of the household members in the first phase of the fire, when the fight against time is the most important for the success of the firefighting operation and evacuation. It warns residents about a fire alarm with a sound signal and lighting of the diode. Its characteristic feature is mobility and ease of assembly without the need to distribute cable installations.

- Working voltage: DC 3V (CR123A lithium battery)
- Static current: $\leq 10 \mu\text{A}$
- Alarm current: $\leq 60 \text{ mA}$
- Sound level: 85 dB / 3m
- Web: Zigbee ad-hoc
- Working temperature: $-10^{\circ}\text{C} - +50^{\circ}\text{C}$
- Working humidity: $\leq 95\% \text{ RH}$
- Dimensions: 60 * 60 * 49.2 mm
