- Wi-Fi/Ethernet IP Camera
- For your indoor needs
- Full HD 1080p picture quality
- Pan & Tilt function
- Two way audio
- Smart W-Fi config
- 8 LED lights, IR distance 8m
- Built-in microphone and speaker
- Easy use with mobile app
- Streams the picture to your smartphone
- Alerts when movement is detected

A small camera with Full HD image quality for indoor applications. With two engines, it is possible to remotely rotate the camera lens horizontally and vertically, which allow monitoring of a much larger space than using a static camera. Two-way audio transmission allows you to receive voice from the monitored site and send messages or warnings in response to the threat. Night Vision System allows lightening of a dark interior with a built-in LED light. The built-in Ethernet port will take care of a stable network connection, so you can receive high quality Full HD picture right on your phone or tablet.
