

Smart EYE 400 IP Cam FS2SE400

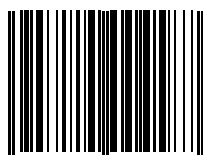

It is part of the Ferguson Smart Home system. It can be used independently.

- Resolution: 4MP
- Lens: 4mm@F2.0; Lens Interface: M12; Sensor: 1/2.9"
- Infrared LEDs: 2; White light LEDs: 1
- Viewing Angle: 90°; Horizontal Rotation: 355°; Vertical Rotation: 90°
- Infrared Wavelength: 850nm; Night Vision Distance: 20m
- Illumination Threshold: Day/Night < 2Lux; Night/Day > 4Lux
- Day and Night Mode: ICR Infrared Filter
- Digital Noise Reduction: 3D
- Backlight Compensation: Supported
- Strong Light Suppression: Supported
- Two-Way Audio: Supported
- Privacy Masking: Supported
- Sound and Light Alarm: Supported
- AI Algorithm: Motion, Human, Vehicle Detection; Area Detection: Intrusion, Area Exit, Movement, Loitering Detection
- Wired Network Port: Yes
- Storage: Micro SD Card (≤256G) (sold separately) / Cloud Storage
- Audio Input: Built-in High-Sensitivity Microphone; Audio Output: Built-in Speaker
- Video Compression: H.265p Standard; Audio Compression: G.711A Standard
- Maximum Image Size: 2560x1440p
- Frame Rate: 25 fps
- Image Settings: HD/SD Support; Mirroring Support
- Frequency Range: IEEE 802.11b/g/n 1T1R
- Channel Bandwidth: 2.4 GHz
- Antenna: Supports 20 MHz
- Network Modes: Access Point Configuration
- Supported Protocols: TCP/IP, HTTP, DHCP, DNS, MQTT, P2P, RTSP
- Material: Metal Casing + Plastic Housing
- Water Resistance: IP66
- Operating Temperature: -10°C ~ 60°C
- Humidity: <95% (non-condensing)
- Power Supply: DC12V/1A
- Dimensions: 115*137*188mm
- Weight: 432g

Discover the Ferguson Smart EYE 400 external IP camera – a reliable monitoring solution that combines modern design with the latest technologies, ensuring safety and control in all conditions. Equipped with a range of features for intuitive operation and exceptional performance, this camera meets the needs of even the most demanding users.

- **Superior image quality** – Thanks to its built-in lens and IR CUT technology, the Smart EYE 400 delivers clear images both day and night, allowing 24/7 monitoring, ideal for protecting properties, garages, or shops.
- **Complete control in all weather conditions** – Designed to withstand harsh weather, the Smart EYE 400 operates in extreme temperatures from -10°C and features a waterproof design, making it perfect for demanding locations, such as homes, offices, or warehouses.
- **Advanced detection features** – With motion detection capabilities, the camera automatically records changes in the environment – be it the movement of people, vehicles, or other events, offering intelligent property protection.
- **Easy wall or ceiling installation** – The Smart EYE 400 can be installed to suit your needs – on walls, ceilings, or convenient locations. It ensures accurate detection within 1.5–15 meters and an angle of 30°–60°, adapting to the specifics of the monitored area.
