

Ferguson S8 is a high quality, 8-inch multimedia tablet designed for the most demanding users seeking a product, that offers extraordinary opportunities. The device is the first tablet in our offer controlled by the **Microsoft® Windows™ 8.1** operating system, that also offers the full suite of **Microsoft Office 365** (annual personal license). The use of this renowned system allowed us to achieve unparalleled efficiency and made possible to offer a whole new level of experience to tablets users. In the heart of the construction an high-end **Intel® Atom™** processor (clocked up to 4 x 1.8 GHz) was used. This incredibly fast computing unit combined with Microsoft® Windows™ operating system makes Ferguson S8 a product ideal for business. For even greater comfort, we included an **ergonomic keyboard** to the set. Additionally, you can use it as a convenient base for the device and also as an elegant protective case to protect the screen from scratches. You will never again have a problem with writing long emails and documents on the tablet!

Robust metal housing, on which you will not notice any fingerprints. The materials used make the tablet rests firmly in your hand, and everyday use is extremely convenient.

The device is available in two colors: **silver** and **gold**. The tablet is incredibly slim, sleek and modern. We created it to fit your mobile lifestyle.
