

Main features:

- Support of **DVB-T** and **DVB-C** standards in one device!
- **HD 720p** resolution.
- **Excellent quality E-LED panel** supports - among other technologies - dynamic noise reduction, adaptive deinterlacing, color deepening technology and motion compensation removing ghost effect and image blur effect in fast video sequences known of the cheaper TV sets.
- **Multimedia support** - just plug a USB drive with the media to display your photos, videos or music and have a good time with your loved ones watching them! Of course, built-in and external subtitles are supported.
- **Conditional Access Module in the CI+ standard.**

Meet small, versatile TV set that has all the necessary TV functions: **Ferguson T195HD506**. In this model we use a hybrid tuner capable of receiving terrestrial and cable TV, so there is no need to spend money on external receivers, one can watch programs broadcasted in **DVB-T** and **DVB-C** standards.

Ferguson T195HD506 has a very good image quality and color reproduction. The LCD panel is made in E-LED backlight technology and offers a very good contrast of 3000:1 and wide viewing angles of 178/178 degrees. Many access slots allow you to connect plenty of external devices, such as a computer, DVD player or game console. Ferguson **T195HD506** works great also as a computer monitor.
