

Meet versatile, well equipped with all the features you need TV receiver - Ferguson T232FHD506. In this model special attention was paid to the support of **DVB-T, DVB-T2 and DVB-C** standards for reception of terrestrial and cable TV, so there would be no need to spend money on external receivers. Now one can watch TV broadcasts using a built-in, hybrid DVB tuner.

Ferguson T232FHD506 has a very good image quality and color reproduction. The LCD panel has powerful LED backlight technology, offers a very good contrast of 5000:1 and wide viewing angles of 178/178 degrees. Large selection of slots access allows you to connect to your TV almost any external device including smartphones, tablets (also with MHL technology), game consoles and computers. Especially in the case of computers Ferguson T232FHD506 excels in the role of the monitor.

Main features:

- Support of **DVB-T, DVB-T2 and DVB-C** standards in one device!
- **Full HD 1080p** resolution.
- **Excellent quality LED panel** supports - among other technologies - dynamic noise reduction, adaptive deinterlacing, color deepening technology and motion compensation removing ghost effect and image blur effect in fast video sequences known of the cheaper TV sets.
- **Multimedia support** - just plug a USB drive with the media to display your photos, videos or music and have a good time with your loved ones watching them! Of course, built-in and external subtitles are supported.
- **MHL technology** - connect your smartphone or tablet and enjoy high-definition video directly on your TV screen.
- **A multitude of inputs and outputs** allows you to connect almost any external device (3xHDMI, VGA, MHL, headphone jack, SCART, etc.)
- **Good and clear sound** provided by two 5W speakers.
- **Conditional Access Module in the CI+ standard.**

 **MHL**™ MHL is an innovative technology that completely changed the way we work and play with mobile devices. Turn your smartphone or tablet into a home theater system and play games or watch your favorite movies and home videos in high definition directly on the TV!
