

FAST
MULTIPURPOSE
UNIQUE

Ferguson FBOX is a mini-computer based on a **fast, dual-core processor** and **powerful 3D graphics**. It is a solution with a **wireless, gyrosopic remote control** that offers **Smart TV** to any TV. The unit is dedicated to both the media storage devices and a content streamed directly from the Internet. It features unique in its class, hardware supported **high definition 1080p video decoding** via XBMC Media Player. The use of Android system allows for a deep support for multitasking, use of internet, playing movies, games, music, internet radio and much more. Additionally you'll find a unique **USB HUB** with two USB ports, **SD card reader** and a **wireless WiFi module**. The whole unit is supported by 2 Amp power supply that provides seamless support for drives without their own power supply. **Flexible HDMI connector** allows for plugging the device at any angle to the TV.

features

1. Flexible HDMI terminal, which allows for plugging the device at any angle into the socket of the TV.
2. Wireless, gyrosopic remote control capable of handling any device with Android software.
3. Hardware support for decoding video footage in high definition 1080p.
4. The unique hub with built-in Wi-Fi. Thanks to the placement outside the FBOX, there are no problems with cooling equipment known from other devices and above all - it allows for plugging in two external drives (without the need for additional power supply).
5. The only device on the market with a pre-installed application TVN Player (one of the biggest VOD suppliers in Poland).
6. Pre-installed XBMC Media Center.
7. Unrestricted access to Google Play Store.
8. Small2Big - Display your smartphone screen directly on the TV.

specification

Operating system	Android 4.2.2
Main Chip	AMLOGIC AML 8726 – MXS
CPU Sub-system	Dual core ARM Cortex-A9 CPU up to 1,5 GHz
3D GPU (graphics)	Dual core ARM Mali-400 GPU up to 400 MHz
Memory DDR3	DDR3 1 GB
Internal memory FLASH	4 GB
Wi-Fi	IEEE 802.11 b/g/n (RTD8189)
Socket	SD, Micro SD, Micro USB (OTG) & USB – 3P (HOST)
Keyboard and Mouse Support	YES – 2.4 G Wireless Mouse and Keyboard
Connectivity Solution	DLNA (DMR), NFS, CIFS, Miracast, AirPlay
Audio	MP3, WMA, WAV, M4A, OGG, AAC, FLAC and others
Video	AVI, MKV, WMV, MPG2/4, TS, MOV (H.264), 3GP, VOB and others
Online Stream Playback	XBMC, Youtube, MX Player, MoviePlayer, TVN player and others
HDMI	1080p HDMI 1.4
HTML5	Supported
Input Power	5V / 2 A
Size	136 x 30 x 14 mm
Weight	40 g
Temperature	0 ~ 40 °C
Humidity	< 95%

in / out

- 1 x HDMI 1.4
- 3 x USB
- 1 x SD
- 1 x micro SD
- 1 x OTG

**remote control**

Remote control SR200D has intuitively arranged function keys, allowing you to conveniently operate all the FBOX's functions. It is structurally combined with traditional computer mouse acting in the air (gyroscopic indicator). The remote communicates with the main unit via a wireless 2.4 GHz technology, which positively affects the operating range, which is up to several meters.

PACKAGING

Package: **20** or **40** pcs

Package

Dimensions:

- Width: 195 mm
- Height: 140 mm
- Depth: 50 mm

EAN Code

Code: 5907115002194
