FBOX2
Turns your TV into Smart TV

ANDROID 4.4
QUAD-CORE CPU
ETHERNET · WI-FI
DTS PASSTHROUGH
WIRELESS, GYROSCOPIC
REMOTE CONTROL

The new version of the perfect media player - FBOX - is based primarily on a completely new design and components that make FBOX 2 approx. **50% faster** than its predecessor. Ferguson FBOX 2 is a multimedia device based on **Android 4.4**, which will turn your TV to Smart TV without the need of spending much money for a new model of TV. Just plug the device in HDMI port, connect it to an **Ethernet or Wi-Fi** network and you are ready to go. You can stream media placed on the Internet or available on a local network. Or you can play them from disk or SD card attached directly to the device. No matter what you will attach, FBOX 2 will play almost everything.

Faster!

Quad-core processor, dual-core graphics chip... These specifications are responsible for even smoother FBOX operation. Now navigation between media files and through your library resources will be even more fun.

Android 4.4

The latest version of Android brings many improvements and features that significantly increase the overall FBOX experience.

Ethernet!

We listened to the requests of our users. For lovers of high transfers we equipped FBOX 2 with Ethernet Connectivity, so you can use the network to its maximum.

Hardware video decoding

FBOX supports hardware decoding of video footage in high definition 1080p through XBMC platform. The playback of compatible video material is smooth and fast.

Certified player

FBOX is the first device of this type of devices, that is certified by TVN platform as well as it fully supports Filmbox Live.

Small2Big

This unique FBOX functionality allows you to display multimedia content (videos, photos) from your phone or tablet directly on your TV.

Perfect in every way

Connect Ferguson FBOX 2 to the TV in your living room and enjoy the Internet at your fingertips.

With the included gyro remote control you will discover a whole new experience while navigating your media library and playing on the big screen.

The entire contents of Google Play Store is for you. We do not limit our devices! They are fully functional!

Take advantage of resources made available by your friends. With XBMC Media Center, you can play their movies and music directly on your device, without the need to copy any files. Just stream them.

AirPlay, DLNA, UPnP, DTS ... Why bother with hundreds of shortcuts? Play virtually anything from virtually any device.

Are you a geek? We too ;)... We created FBOX 2 with more demanding users in mind. At an intuitive interface hides a full-fledged Android 4.4, which you can do what you want. Want to turn your FBOX to WWW or NAS server? No problem! We did that...

In / Out

- 1 x Analog AV
- 1 x HDMI 1.4
- 1 x Ethernet
- 1 x USB
- 1 x SD / Micro SD
- 1 x USB OTG

Gyro remote control

Remote control SR200D has intuitively arranged function keys, allowing you to conveniently operate all the FBOX's functions. It is structurally combined with traditional computer mouse acting in the air (gyroscopic indicator). The remote communicates with the main unit via a wireless 2.4 GHz technology, which positively affects the operating range, which is up to several meters.

specification

Device	Allwinner A31s ARM® Cortex™-A7 Quad-Core
Android version	Android 4.4 KitKat
TV Out	HDMI, supported : 1080p/i, 720p, 576i, 480p
Memory	1GB DDR3
Internal memory	eMMC Flash 4GB
Connectivity	Wi-Fi 2.4G 802.11b/g/n, Ethernet
Processor	Allwinner A31s ARM® Cortex™-A7 Quad-Core
CPU Sub-system	ARM® Cortex™-A7 Quad-Core
3D GPU Unit	PowerVR™ SGX544MP2
In / Out	USB OTG & SD card slot, AV OUT, RESET, HDMI, Ethernet port, DC IN, USB HOST Port
Keyboard support	Yes, wireless (2.4 G Wireless Keyboard & Mouse)
Supported protocols	DLNA(DMR), NFS, CIFS, Miracast, Airplay, others (via Google Play applications)
Supported audio containers	MP3, WMA, AAC, OGG, OGA, FLAC, ALAC, others (via Google Play applications)
Supported video containers	WMV, MP4, RM, RMVB, TS, AVI, VOB, MOV(h.264), ASF, 3GP, others (via Google Play applications)
Streaming online	Youtube, XBMC, MoviePlayer, others (via Google Play applications)
HTML 5	Yes
Input power	5V / 2A
Temperature	0-40 °C
Humidity	< 95%
Size (mm)	130 x 130 x 45
Weight (g)	225

PACKAGING

Package: 20 or 40 pcs

Package

Dimensions:

- Width: 225 mm
- Height: 170 mm
- Depth: 65 mm

EAN Code

Code 5907115002262
